KNIFE SHARPENING

In 1976, DIENES USA began the paper and converting industry, knife manufacturing and re-sharpening services located in Spencer, MA. Since then, our precision factory has contributed to the 10 million total knives manufactured by the DIENES group founded in 1913.

Today, DIENES USA re-sharpens a full range of paper and converting knives. Our technicians remain ready to support your slitting production activities.

DIENES Re-Sharpener Program Includes:

- 7 day turn-around
- Blade life evaluation
- Custom shipping containers
- Bar code tracking
- Automatic knife replacement
- Free local pick-up and delivery service

Do you have a high volume of knives to sharpen? Consider your own **DIENES USA** CNC Precision Grinder!

- Precision rotary work head
- Pre-Loaded bearing positioning
- Primary and secondary shear angle grinding
- Menu driven
- Reduces employee down time
- CRT display
- Increases productivity
- Universally sharpens shear male/female and score knives
